
DirX Identity 2

Follow up course to DirX Identity 1 for advanced administration of DirX Identity

DirX Identity provides a comprehensive, process-driven, customizable, cloud-ready, scalable and highly-available identity management solution for enterprises and organizations. It delivers overall identity and access governance functionality seamlessly integrated with automated provisioning. Features include life-cycle management for users and roles, cross-platform and rule-based provisioning in real-time, Web-based user self-service and delegated administration, request workflows, access certification, password management, metadirectory and auditing and reporting.

This course provides in-depths training for selected topics of DirX Identity administration. The course is well balanced between theoretical concepts and practical exercises.

Content

- DirX Identity architecture and features
- Advanced scenario "on a green field" using templates from a customer domain
 - Management of users
 - Management of target systems
 - Management of policies
 - Management of privileges
 - Management of objects descriptions
 - Management of passwords workflows
 - Management of request workflows
 - Management of real-time workflows
 - Segregation of duties
- Maintenance and troubleshooting
- Exercises

Benefits for the trainees

The participants will get knowledge how to use a customer domain of DirX Identity. They will be able to manage users, privileges, policies, accounts and groups and provide them to a target system starting from scratch (on a green field) and using the templates of the product. Problems in configuration will be detected, analyzed and repaired.

Target Group

Technical consultants, system integrators, service staff, technical project manager

Prerequisites

- The participant is able to administer and work with Microsoft Windows Server 2008 or 2012.
- The participant is an experienced administrator and user of DirX Directory.
- The participant has successfully passed the course DirX Identity 1.

Teaching method

Presentations, group exercises, discussions, demonstrations

Instructors

The instructors are experienced employees of Atos or certified trainers for DirX Identity.

Duration

5 days
